

Arthian is a trusted partner for clients navigating the complexities of engineering, environmental, and safety challenges. Our multidisciplinary team works across the UK and internationally, providing expertise to help clients de-risk projects, achieve compliance, and drive sustainable growth.

From supporting energy transition and decarbonisation efforts to ensuring regulatory compliance and optimising resource efficiency, we provide integrated solutions that balance sustainability with commercial viability. With a deep understanding of evolving policies and industry trends, we help businesses anticipate risks, unlock opportunities, and support them to make strategic and informed decisions to deliver long-term value.

Engineering

Our Services

Engineering & Surveying

- » Civil Engineering
- » Geotechnical Engineering
- » Mechanical & Electrical Engineering
- » Process Engineering
- » Renewable Energy Engineering
- » Structural Engineering
- » Temporary Works
- » Secondary and Tertiary Containment
- » Tank Storage infrastructure
- » Asset management
- » 3D Laser Scanning
- » Ground Penetrating Radar (GPR) & Utility Detection
- » Structural Monitoring
- » Topographical Surveys
- » Water & Wastewater

Development

- » Air Quality
- » Archaeology & Heritage
- » Architecture
- » Construction Environmental Management Plan (CEMP)
- » Contaminated Land
- » Ecological Surveys
- » Environmental Impact Assessment (EIA)
- » Flood Risk & Drainage
- » Glint & Glare
- » Noise & Vibration
- » Landscape Architecture Services
- » Planning Consultancy
- » Visualisation & Graphics

Energy

- » Cable Routing
- » Carbon Capture & Storage
- » Building Services Compliance EPC/DEC/TM44/MEES
- » Energy Saving Opportunity Scheme (ESOS)
- » TCFD & CSRD
- » Solar PV & Solar Thermal – Consents & Design
- » High Temperature Heat Pumps
- » Ground, Air and Water Heat Pumps
- » Wind Turbine Design
- » Feasibility Studies
- » Heat Decarbonisation Plans
- » Net Zero Strategies

Sustainability

- » Environmental Legal Compliance Audit
- » Legal Register Updates
- » EHS Compliance
- » On-site services and Interim Sustainability Officer support
- » Sustainability Strategy
- » Sustainability Reporting and Verification
- » ESG Services
- » Social Value support
- » Environmental Review
- » Circular economy and waste management
- » Resource efficiency and waste minimisation

Safety, Training & Management Systems

- » Health & Safety Consultancy
- » Occupational Hygiene CDM
- » Process Safety (DSEAR, COMAH, CDOIF, HAZOP/HAZID, OBRA)
- » ISO 14001 Environmental Management Systems
- » ISO 50001 Energy Management Systems
- » ISO 9001 Quality Management Systems
- » Integration of Management Systems
- » ISO 22001 Food Safety Management Systems
- » Internal Audit
- » IEMA Sustainability Skills Training (1 and 2 day)
- » IEMA EMS Implementation Training (3 day)
- » IEMA Foundation Certificate in Environmental Management (5 day)
- » IEMA Carbon Management Training
- » IEMA Net Zero Pathways Training
- » Bespoke: Toolbox talk training, spill training, chemical awareness, waste duty of care
